## ABOUT ME

I'm a talented individual with a strong focus on Full stack Web development. With expertise in React.js, Node.js, and frontend technologies, I bring innovative ideas to life through my coding wizardry. Equipped with a deep understanding of data structures and algorithms, I consistently delivers efficient and optimized solutions. My commitment to continuous learning enables me to adapt swiftly to new technologies, making me an ideal candidate for your web development projects. Join hands with me to elevate your digital presence and achieve your goals in the ever-evolving world of web development.

## WORK EXPERIENCE

### ForeClust (machine learning base web project )

**FYP Work** [ 1 Jun 2023 – Current ]

City: Lahore

Country: Pakistan

In my final year project, I effectively utilized frontend (HTML, CSS, Bootstrap, JavaScript) and backend (MySQL, PostgreSQL, Django) technologies. I conducted Sentimental and Technical Analysis, incorporated UI/UX design principles, and maintained meticulous documentation while adhering to Software Engineering Requirements.

### Web developer

**internee at DigitsCom Technologies** [ 1 May 2022 – 30 Sep 2022 ]

City: Lahore

Country: Pakistan

gained valuable industry experience through an internship in web development, with a focus on Front End. This internship has been instrumental in enhancing my practical skills and providing me with hands-on exposure to the latest web development technologies.

### Mern Stack

**Internee at CodSoft** [ 1 Aug 2023 – Sep 2023 ]

City: lahore

Country: Pakistan

During my internship, I had the opportunity to work as a Mern Stack web developer, focusing on creating captivating user interfaces and optimizing the user experience..

### Mern Stack

**Internee at Dynamic Developers** [ 10 Aug 2023 – 10 Oct 2023 ]

City: Lahore

Country: Pakistan

During my previous internship, I had the opportunity to work as a Mern Stack web developer, focusing on creating captivating user interfaces and optimizing the user experience. Throughout this internship, I gained practical experience in HTML, CSS, JS, JQUERY, REACT JS, and NODE JS, EXPRESS JS, MONGO DB

### **Web Developer**

**Internee Code Alpha** [ 1 Sep 2023 – 31 Oct 2023 ]

City: Lahore

I gained valuable industry experience through a web development internship, refining my skills and applying them to real-world projects. This opportunity enhanced my understanding of industry practices, fostering effective collaboration and successful project outcomes.

### **Web Developer**

**part Time (DigitsCom Technologies)** [ Current ]

As a MERN Stack Developer at DigitsCom Technologies, I contribute to dynamic projects while working part-time, showcasing my expertise in MongoDB, Express.js, React.js, and Node.js. My role involves crafting robust web applications, implementing scalable solutions, and collaborating with multidisciplinary teams to deliver high-quality products. This experience enriches my skill set and provides valuable insights into modern software development practices within a professional setting.

### **Freelancer**

**Fiverr** [ 1 Nov 2020 – Current ]

City: Lahore

Country: Pakistan

I am provide freelance services in computer science, specializing in Web app development.

## **EDUCATION AND TRAINING**

---

### **BSCS**

**UET Lahore** [ 15 Sep 2020 – 15 May 2024 ]

City: Lahore

Country: Pakistan

Website: <https://www.uet.edu.pk/home/>

## **LANGUAGE SKILLS**

---

Mother tongue(s): **Urdu | Hindko | Panjabi; Punjabi**

**Other language(s):**

**English**

**LISTENING C2 READING C2 WRITING C2**

**SPOKEN PRODUCTION C2 SPOKEN INTERACTION C2**

*Levels: A1 and A2: Basic user; B1 and B2: Independent user; C1 and C2: Proficient user*

## **DIGITAL SKILLS**

---

Microsoft Office package: Microsoft Word, Excel, PowerPoint, Access / Visual Studio Professional 2019 / MERN Stack (MongoDB, ExpressJS, ReactJS, NodeJS) / Frontend Development (HTML, CSS, JavaScript) / C / C# / C++ / Python Language - Basic knowledge / git / GitHub / Anaconda

## PROJECTS

---

### Image Processing and Computer vision project

[ 1 Oct 2023 – 25 Dec 2023 ]

In this project I worked in Yolo Model for oranges tagging and annotation, and then trained a CNN model for automatic detection of oranges and counting.

### C++ TicTac Toe

[ 15 Dec 2020 ]

Developed a Tic Tac Toe game using C++ programming language, demonstrating proficiency in algorithmic thinking, object-oriented programming principles, and problem-solving skills.

### HOSTEL MANAGEMENT SYSTEM

[ 25 Dec 2021 ]

4th Semester It was my semester, group project and we integrated database to efficiently manage and organize student accommodations, records, and administrative tasks using My SQL Database.

### SFRA CLONE

[ 15 Aug 2022 – Sep 2022 ]

During my internship, I adeptly created SFRA clone pages as part of website development, demonstrating proficiency in replicating and implementing complex functionalities to enhance user experiences and bolster the overall web platform.

### Tic Tac Toe Artificial Intelligence

[ 20 May 2022 ]

Developed an Artificial Intelligence semester project, demonstrating proficiency in AI technologies and problem-solving skills while leveraging innovative approaches to address complex challenges

### Recipe Website

[ 12 Mar 2022 ]

Developed a Recipe Website catering to the requirements of a foreign client, showcasing proficiency in frontend and backend technologies, user experience design, and effective client communication.

### Quiz App

[ 15 Jun 2023 ]

Utilizing the MERN Stack, I spearheaded the creation of a Quiz App, showcasing my proficiency in MongoDB, Express.js, React.js, and Node.js. This experience demonstrated my ability to develop interactive and engaging web applications while employing modern and scalable technologies.

### TODO App

[ 23 Apr 2023 ]

Utilizing React JS, I designed and developed a comprehensive TODO APP, demonstrating proficiency in frontend development and leveraging React's capabilities to deliver an intuitive and efficient user experience.

### Tech Lead 4.0 Clone

[ 7 May 2021 ]

As a MERN Stack Developer at DigitsCom Technologies, I spearheaded the creation of The Clone Tech Lead 4.0 website, demonstrating proficiency in frontend and backend development, as well as effective project management skills.

### Stop Watch

[ 17 Nov 2022 ]

Developed a Stopwatch Application, showcasing proficiency in frontend and backend technologies, while demonstrating problem-solving skills and attention to user experience.

## **Saylani Website**

[ 21 Jul 2021 ]

Developed a replica of the Saylani website as part of my professional experience, demonstrating proficiency in web development and UI/UX design principles.

## **Greeting App**

[ 15 May 2023 ]

Developed a greeting website, showcasing proficiency in web development technologies and design principles, while delivering a user-friendly and visually appealing online platform.

## **Calculator**

[ 18 Sep 2023 ]

Utilizing the MERN Stack, I designed and developed a comprehensive Calculator App, showcasing proficiency in MongoDB, Express.js, React.js, and Node.js. This project underscored my ability to create functional and user-friendly applications while leveraging modern web development technologies.

## **DigiSkills**

[ 3 Feb 2021 ]

Developed an e-learning website using JavaScript, showcasing proficiency in frontend and backend development to deliver a user-centric platform.
